

## Groups for Caltech Undergraduate Astronomy Institute

A	Jingling	Li	Caltech
A	Aurea	Kasberg	Pomona
A	Franklin	Marsh	Caltech
A	Greta	Zhong	Pomona
B	Emersson	Do Nascimento	Caltech
B	Danny	Cushey	Caltech
B	Gabrielle	Mehta	Pomona
B	Angela	Godfriedvna Twum	Pomona
C	Katherine	Hartman	Pomona
C	Maya	Kulkarni	Caltech
C	Samarth	Valjanapurkar	Caltech
C	Kevin	He	Caltech
C	Allison	Ho	Pomona

## ***Scavenger Hunt - Caltech***

Your mission: Find each of these things on Caltech's campus as a group and then take a selfie with yourself near the object listed. These images will be shared with the group - and the group with the most of the acquired targets will win a fabulous prize!

### **Targets for you to find!**

- Millikan Bust - (rub his nose for good luck!)
- A turtle
- A seismograph showing the latest earthquakes in the region
- The highest point on Caltech's campus
- A cannon/howitzer (subject of very famous Caltech vs. MIT vs. Harvey Mudd pranks!)
- Another exotic aquatic creature (frog, crawfish)
- Wind Tunnel Laboratory

Also while you are exploring Caltech - think about objects to observe with the Mt. Wilson 60" telescope. We will want each of the groups to come up with their favorite list of 4-5 objects for our observing on Thursday night!
